

Bespoke *Caterers* _____ Funeral/Wake Menu

We have designed three menus for different parts of the day, and with as little complication in mind at a very difficult time. Leave the organising to us. We can be at the house before you leave or collect a key and set up whilst your not there, we can arrange for staff to greet your guests with drinks and food on their return or just drop and set up food and beverages for you to help yourself, then come and collect dirty crockery at a convenient time.

We also have more extensive finger buffet menus to choose from or can design a particular menu you may have in mind, also feel free to mix and match items from different menus. For more information or any queries you may have please contact Claire on 01255 678 995.
